

Encinitas Union School District

Earth Week

Activities

April

18

Motorless Monday

Walk, ride, or roll to school! If you need to drive, remind your parents to turn off the engine while waiting in the pickup line. Car idling emits toxic chemicals and contributes to health issues especially for kids.

April

19

Tubular Tuesday

Use classroom Solatubes instead of electric lights. Natural light is better for students' health and academic performance while saving energy.

April

20

Waste-free Wednesday

Bring a waste-free lunch and a reusable water bottle. For hot lunch, SCRAP your waste properly. Producing less trash, especially single-use plastics, and composting food waste is healthier for our planet.

April

21

Learning Thursday

Learn how you can make choices to protect our planet. Students aware of climate change issues are more likely to grow into responsible earth stewards.

April

22

Litter-free Friday

Make the school campus clean and litter-free. Litter is harmful to animals and pollutes our waterways.
